in to-day's issue, of our reliable jeweler, Edward Fasnach. The heavy frost of Sunday night and yesterday morning was very destructive to early vegetables. In and about this city Irish potatoes and snaps suffered particularly.

A gentleman living in a neighboring county has named his child Monroe Morridey Lucinda Pipten Evaline Caroline Jane Wheeler—and yet that father is not happy.

There are now 431 convicts in the Penitentiary and four more to come in from this county. Convicts are received nearly every day, and in a short time the number will be swelled

Gov. Caldwell will attend the meeting of the Stockholders of the North Carolina Railroad at Salisbury on next Thursday, and after the adjournment of that meeting pay a short visit to his home in Morganton.

A prominent Knight of Pythias, of this city, informs us that lodges of this order are soon to be established Chancellor Dortch, of Goldsboro.

We understand that the Rescue Steam Fire Company of this city, are considering whether they will excurt to Kittrells Springs or Portsmouth, Va., next month. They will meet

with a hearty reception at either place, we know. It is said that C. D. Johnson, of Orange county, near Chapel Hill, got \$750 from the Louisville lottery, and that a certain club of quiet gentlemen of this city, got \$1,150 out of the same concern. Drafts, it is said,

have been sent on for these amounts. There is a very interesting revival now going on in the Person street Methodist Church, conducted by the Pastor, Rev. Mr. Cole. During the past week there were several conver-

penitents at the altar each night. Rev. Dr. Pritchard, Pastor of the Salisbury street Baptist Church, of this city, left yesterday morning for Baltimore to take part in conducting a protracted meeting in the Franklin Square Baptist Church in that city, of which he was the Pastor at the breaking out of the late war.

The work of laying off walks in Nash Square continues. Some \$2,000 of city money has been expended in grading this proposed Park and seeding it down in grass. Though the grass has just begun to put out prettily in some spots, boys playing base ball and flying kites are allowed to trample it down. RALEIGH N. C., TUESDAY MORNING APRIL 14, 1874.

A fisticuff between two drunken colored women occurred yesterday afternoon on McDowell street. It furnished amusement for quite a large crowd of boys while it lasted. They were separated at last by a couple of men, after a good deal of wool had been pulled and some blood drawn from noses and scratches.

RULES FOR THE DISTRIBUTION OF THE PEABODY EDUCATIONAL FUND. -As there are many localities in this State constantly making application for assistance, for educational pur-poses, from the Peabody Fund, we publish the following circular from Prof. McIver, our Superintendent of Public Instruction, in regard to the rules for the distribution of said Fund to schools. It contains all necessary information, and the press of the State would do a good work by copy-

ing it: "Donations are not made to Colleges, Academies, or any private, sectarian, or charity schools. There will be paid for well regulated Public Free Schools, continued about ten months of the year, and having a regular attendance of not less than 100 pupils, averaging daily 85 per cent., \$300; 150 pupils, averaging daily 85 per cent., \$450; 200 pupils, averaging daily 85 per cent., \$600; 250 pupils, averag-ing daily 85 per cent., \$800; 300 pupils, averaging daily 85 per cent., \$1,000. "In doubtful cases of attendance,

the average number decides the question. The amount appropriated for larger numbers, in cities, cannot be fixed, but must depend on circumstances. The people are to pay for current expenses at least twice, and usually three times as much as they receive from the fund, and bear all the expense of erecting, repairing and furnishing school houses. They are to grade their schools and provide a teacher for every fifty pupils. It is necessary that applications for assistance be made through the Superintendent of each State, near the beginning of the school year. No claim for a share of the fund can be admitted where a special contract has not been previously made.

"All applications for assistance should be made as early as practicable after the beginning of the school year, July first, and forwarded to the Superintendent of Public Instruction, Raleigh, N. C. Each application

must show upon its face: "1. The race for which the school is intended.

2. The names of school house, town ship and county in which the school is to be taught, the name of the nearest postoffice, the names of the principal and assistant teachers, of the educational association, or trustees and school committee who have charge of the school, and the number of pupils actually enrolled. That the school is a free public

school, to be continued ten months of the school year.
"4. That the school is graded, naming the several grades and the

branches taught in each. 5. That the amount subscribed by the people, and the amounts which will be received from the public school funds and from other sources, counted together, will be at least double, or more than double the sum asked for from the Peabody Education Fund.

"For the purpose of establishing Peabody schools, I earnestly recommend and advise that the school districts be made as large as practicable; that two or three districts be thrown together where they are small, or that the township be adopted as a district. Schools for colored children will receive the same assistnce as schools for white children, and upon the same terms. Two schools in the same village or township cannot be counted as one school. The different departments, however, of a graded school may be taught in separate rooms or in separate houses.

The contract for assistance is in all cases made with the association, trustees, or school committee who have the school in charge; it is never made with the teacher. Each application slould be signed by the School Committee and be approved by the Chairman of the Board of Examiners and the Chairman and Secretary of the County Board of Education.

The principal teacher should report to the Superintendent of Public Instruction full statistics of the school on or before the last day of each half term of twenty weeks.

Every application for payment of the amount promised must give full assurance that all the rules for the distribution of the Peabody Education Fund have been or will be complied with. This assurance must be given and signed by the School Committee and Chairman of the Board of Examiners, and by the Chairman, Secretary and Treasurer of the County Board of Education.

THE BLACK LEAD OF WAKE COUNTY.-Though this matter has once or twice been briefly alluded to in this paper, it is a fact not generally known that this county has the largest deposit of black lead yet discovered in this country. The vein was first opened at Camp Mangum Spring, about three and a half miles west of this city, and has been discovered to be about three and a half feet thick and has been traced over fourteen miles in a northernly direction. Its depth has not yet been as-certained. The probabilities are that the vein extends to a far greater distance than the limit given above to its length. Mr. P. Murray, of New York, is the owner of a large number of acres of the land near this city on which the deposit is found, and is now the foundation of the proposed government building, which was filled up with loaded shells by the Federal troops at the close of the working three pits near old Camp Mangum. The lead has been pronounced by Prof. Kerr, our State Geologist, to be medium quality. It is not such as would do for the months. lubrications and moulding purposes it is of the best quality and very penses of moving them away. If this be so the necessity for "blasting-daily a large number of barrels of it to his factory at the North, and it is estimated that he has excayated some twenty thousand tons of it. THE FUNERAL OF MAJOR GAYLE. -The Portsmouth (Va.) Transcript of Sunday has the following account of the burial, in that place, on Friday last, of Major J. B. Gayle, of this city:

'The obsequies of Major Judson B.
Gayle, of Raleigh, N. C., were yesterday solemnized at Monumental M. E. church, Rev. J. P. Garland, the pastor officiating, assisted by Rev. A. E. Owen, of Court Street Baptist church. The services were those of the Methodist church, simple and impressive, the choir rendering the solemn and touching music very appro-priately and effectively. A large throng was present. The remains of the deceased were brought from the Masonic Hall, on Court street, where they had lain all night in the

cutody of Anchor Lodge, A. F. & A. M., and were followed by a very re-spectable gathering of the brethren of the 'mystic tie' to the church, and placed on a rest in front of the chancel. The Masonic fraternity seated themselves in front of the coffin and the services began. An appropriate hymn was read by Mr. Garland and sung by the choir, and then followed a fervent prayer by Rev. Mr. Owen. Another hymn being sung, Mr. Garland arose and delivered a most feeling and impressive sermon from the words: 'But I would not have you to be ignorant. brethren, concerning them which are asleep, that ye sorrow not, even as those which have no hope. For if we believe that Jesus died and rose again, so them also which sleep in Jesus will God bring with him"—1st Thess., 4th chapter, 13th and 14th verses. The Reverend gentleman

ful manner to the noble and generous character of the deceased. "At the conclusion of the sermon the remains were taken to Portlock's cemetery, and there after the rites of the church were at an end, the Masons with their mystic burial ceremony lowered the body of a noble and just man to its last earthly resting place. And as the portals of the grave close over him who was in life an ornament as a man and a citizen. a loving and devoted husband and father, our heart goes out in sincere sympathy for the bereaved, and we trust they may find some slight grain of consolation in that "brotherhood of affliction" that teaches-

SUPERIOR COURT.—The Court met at 4 o'clock, p. m., his Honor, Judge Watts, on the bench.

The following cases were called: State vs. Thomas Jones, larceny. Continued. Defendant recognized. State vs. W. H. Martin, assault and battery. Continued. T. H. Selby, regular juror, was ex-

cused from serving this week. Wm. Jeffreys, regular juror, called and failed. Judgment nisi. State vs. Allen McPherson and Henry Williams, burglary, was taken up. The following jurors were sworn in: Jeremiah Green, John C. Harris, Thomas Skinner, Gabriel Morgan, Robert Smith, Mabon Merrill, Cæsar Stuart and James B. Rue, and a special venire of twenty-five good and lawful men ordered for to-day at 10 o'clock. It will be remembered that these were the persons who robbed Mr. D. C. Murray's house. They were tried and convicted at the last term of this Court, but appealed to the Supreme Court, where they were

granted a new trial. The regular jurors, who were summoned for this week, were discharged until Wednesday.

BISHOP GIBBONS .- This eminent Prelate of the Catholic Church, Bishop of Richmond, Va., and North Carolina, preached at St. John's (Catholic) church on Sunday morning to a very large congregation. Father Gross, the Pastor, celebrated mass. The Bishop's sermon was strikingly beautiful. It was devoted to the Resurrection of our Lord and Saviour and the inestimable benefits accruing to mankind from His Passion, Death and Burial and Resurrection and Ascension. As eloquent as was the diction of the sermon, its most attractive characteristic was the elegance of its simplicity and the affectionate earnestness with which the many beautiful and holy lessons to be drawn from the theme were urged upon the hearers. While the discourse could not fail to give the utmost pleasure to the cultured intellect, it addressed itself to the comprehension of the most illiterate. It was by no means a doctrinal sermon, as far as differences in creed go, but one which could not fail to be endorsed by all professing faith in Christ and Him crucified. As a good man and eloquent divine, Bishop Gibbons has no superior in this or any other country.

SPRING AND SUMMER. The standard remedies for all diseases of the lungs are SCHENCK's PULMONIC SYEUP, SCHENCK'S MANDRAKE PILLS, and, if taken before the lungs are destroyed, a speedy cure is effected.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary diseases.

cess in the treatment of pulmonary diseases.

The Pulmonic Syrup ripens the morbid matter in the lungs; nature throws it off by an easy expectoration, for when the phiegm or matter is ripe a slight cough will throw it off, the patient has rest and the lungs begin to heal.

To enable the Pulmonic Syrup to do this, Schenck's Mandrake Pills and Schenck's sea Weed Tonic must be freely used to cleanse the stomach and liver. Schenck's Mandrake Pills act on the liver, removing all obstructions, relax the gall bladder, the bile starts freely, and the liver is soon relieved.

bile starts freely, and the liver is soon relieved.

Snenck's Sea Weed Tonic is agentle stimulant and alterative; the alkali of which it is composed, mixes with the food and prevents souring. It assists the digestion by toning up the stomach to a healthy condition, so that the food and the Pulmonic Syrup will make good blood; then the lungs heal, and the patient will surely get well if care is taken to prevent resh cold. All who wish to consult Dr. Schenck, either personally or by letter, can do so at his principal office, corner of Sixth and Arch Sts. Philadelphia, every Monday. Schenck's medicines are sold by all druggists throughout the country.

should note this fact. THE Virginia rivers are heavily swollen from the recent rains. In many instances the flood equals that of 1870. Much damage will be sustained.

THE matter of obtaining the necessary funds for Philadelphia's big Centennial makes but little headway Not only is Congress slow in making any appropriation, but the Pennsylvania Legislature seems to falter and to decline to take stock in the movement.

THE Newbern Republic-Courier says that APPLETON OAKSMITH, Esq., "is the most able financier in the State, and is an honorable and high-toned gentleman." It goes for the editor of the New North State with gloves off for his attack upon the Midland scheme and OAKSMITH. The latter individual has resigned his connection with the Midland Company, giving as his reason the attacks that have been made upon his character.

THE announcement of the completion of a chain of telegraph and lifesaving stations along the Atlantic coast, from Norfolk, Va., to Cape Hatteras, this State, has been announced. The danger and delay to shipping along this portion of the coast is well known and much dreaded. More security is given to life and property by the accomplishment of this longneeded work. We hope it will have a tendency to lessen the rates of insurance on goods shipped South by this route.

ONE of the most harrowing features of the success of the inflation measure to the New York Herald is that the Republican Senators of the West should accept the leadership of a Southern Democratic Senator-Judge MERRIMON. It argues from this that the Republican party of that section are coming over to the Democratic fold. We hope it is correct in its surmise. There are lots of well-meaning men in that portion of the country who have lingered too long in very bad company.

THE New York Tribune saw on Friday its thirty-fourth birth-day. Though of a decidedly different political faith from the one we adhere to, candor induces us to admit that it is one of the most solid, reliable and instructive journals in the world. Its arguments are always temperately and fairly made. It is a bold and fearless denouncer of wrong, let it come from what quarter it may. Journalism would be much elevated and dignified in this country if there were more papers of the character of the Tribune. It is an able, dignified and enterprising paper, and reflects credit upon American journalism.

IT seems that a sort of stampede is taking place in our diplomatic corps. The minister to China has resigned and Mr. B. P. AVERY, of California. has been appointed to succeed him. Mr. BANCROFT has intimated a desire of relieving Berlin of his presence permanently. Mr. JAY, it is said, is making preparations to return to his domicile in New York, and Mr. Cushing will not likely remain much longer in Madrid. Mr. BOKER is reported as tired of helping to nurse the "sick man" (TURKEY) and is expected to shortly return home, and there is no assurance that General SCHENCK will go back to London. So its seems probable that shortly there will be some half dozen missions to fill.

THE Spanish war drags its slow length along. From all present indications SERRANO'S operations in the North have not given satisfaction to the authorities at Madrid, and there are reports of his having been superseded in the command of the Army of the North by General Concha. SERRANO will, it is said, return to the capital and hold a convention. These reports, however, lack confirmation. But one thing is certain, that the present authorities at Madrid have made little, if any, headway toward the suppression of the Carlist outbreak. The collapse of the socalled Republican administration would take no one by surprise who has at all closely watched the progress of affairs in that country.

GEN. BUTLER rushed in upon the Ways and Means Committee a few days since, when the SANBORN investigation was proceeding, and inthe House, to be summoned before the Committee when testimony aftecting him was being taken. His particular grievance was that his confidential relations with SANBORN had been exposed in his absence. Mr. BUTLER is said, by the correspondents, to have been much agitated, and actually to have abstained from any display of buffoonery or of the hectoring manner which he habitually exhibits in the House. He vehemently denied any connection with the SANBORN contract, except such a one as he might properly have; and wound up, in an inconsequential way, with familiar abuse of the press and the correspondents. He and SANBORN are to have a joint examination at an early day.

THE people of Petersburg, Va., have not despaired of overthrowing the Radical government in their midst. Having been defeated and sadly disappointed by the Governor's veto, they have asked for a revised registration which has been granted them, and now that the ballot box can be purged of all illegal voting they hope to throw off the incubus that has so long retarded the prosperity of that city.

THE report has been circulated, but nothing in the occurrences of the past several days have been developed to indicate its truth, that GRANT will call DAWES to his Cabinet as Secretary of the Treasury, vice the "knownothing" RICHARDSON, and instructed his henchmen in the Massachusetts Legislature to give their support to Judge HOAR for the United States Senatorship. Up to Saturday nothing had been indicated of an immediate change in the Cabinet unless the long interview between the President and RICHARDSON has some such significance attached to it Since the ventilation of the SANBORN contracts the country has been loudly calling for a change in the management of the treasury department, and it is probable that the tremendous pressure brought to bear on GRANT will force him to tell RICHARDSON that his resignation would be accepted.

THE Richmond Enquirer "jotting man" delivers the following hits at North Carolina:

"It's about time for North Carolina to start another sensation.' "Gander pulling" is a favorite and seasonable amusement in North Carolina just now; but neither the RALEIGH NEWS nor Sentinel have told us how they like the fun." [We haven't tried it on-let the Enquirer jotter come down and place his neck at the mercy of the puller-we have no doubt he would enjoy it .- ED.

NEWS.] "The Rads lay the blame of their defeat in Connecticut on the 'Bald Mountain eruption,' while the Democrats credit their victory to the 'Siamese autopsy'-but the true cause. it appears to us, is the approaching

transit of Venus. "It is stated in a Spartansburg, S. C., letter that all the Bald Mountain unpleasantness is due to a fire built three years ago in an aperture to smoke out a coon, which fire is still burning. Doubtless 'that same old coon' which disappeared very suddenly from political life in 1852, and to which the old North State was so devoted.

An Important Move-The Proposed Change of Guage of the Richmond and Danville Railroad to Greensboro in Order to Conform to the Guage of the N.

The Richmond Dispatch of vesterday contains the following information

The House Committee on Roads and Internal Navigation met Saturday morning in the office of Superintendent of Public Instruction. In the absence of Judge Ould, Colonel Armstrong acted as chairman. The following bill, introduced in

the House by Mr. Scruggs and referred to the committee, after some mi nor matters had been disposed of, was taken under consideration: A bill to authorize the Richmond and Danville Railroad Company to

change and regulate the guage of its "WHEREAS, It may be of much importance and value to the Richmond and Danville Railroad Company, and to a large portion of the neople of the State who are provided by said company's road with an useful and necessary means of transportation, that the said company be authorized and allowed so as to alter and regulate the guage of its road as thereby the better to accommodate the business and economize its operations in conducting the same; there

"1. Be it enacted by the General Assembly of Virginia, That it shall be lawful for the Richmond and Danville Railroad Company to alter, change and regulate the guage of its road at such time and in such manner as the said company may judge best for the promotion of its business and to maintain and operate their line of road on such standard of guage as the said company may at any time deem necessary and proper to secure the most efficient, useful and economical operation of the same. And any law or provision of law to the contrary is hereby repealed.

"This act shall be in force from its passage.

Colonel A. S. Buford, President of the Richmond and Danville Railroad Company, who was present, was asked to explain the bill, and in substance said: "I mean to be entirely frank and

candid. This proposition is made to fulfill the purposes which we hoped would have been reached in another The Piedmont road was constructed during the war by the Richmond and Danville Railroad Company, and this company in 1871 acquired by lease the interest of the North Carolina Central road, from Greensboro to Charlotte, a distance of ninety-one miles, with a guage differing from that of the Richmond and Danville road. My company have made continuing and persistent efforts to adapt the guage of this ninety-one miles of the North Carolina road to that of the Richmond and Danville road and of the roads beyond Charlotte. In this effort we have been foiled through the instrusisted upon his right, as a member of mentality of antagonizing interests, and we now stand arrested by the injunction of the courts. In the present condition of our company it would be better for us to change the guage of this ninety-one miles than of the one, hundred and ninety from Richmond to Greensboro. Under existing circumstances, however, it would be our better policy to conform the guage of our road from Richmond Greensboro to that of the North Carolina road, inasmuch as that would involve but one transfer, and that at Charlotte. I am very frank to say that in my opinion the narrow gauge, four feet eight and a half inches, is preferable to the wide gauge of five feet, and ought to prevail throughout the country. I beg to assure the committee that this application is made simply on the principle which controls the management of every well-regulated road—that of taking care of itself."

In response to a question by a mem-

ber of the committee, Colonel Buford stated that all the roads south of Carolina are of five-foot guage, and that the connections of his road from Charlotte via Atlanta to Mobile and New Orleans are the same. To another inquiry made by Colonel Armstrong, the chairman pro tem., Col. Buford, said that probably about 1856, in an act authorizing the guarantee of the bonds of the Richmand and Danville Railroad Company, it was provided that the guage of the Richmond and Danville Railroad should be that of the Southside Road.

In answer to a further inquiry Col. Buford stated that this was the only legislation on the subject known to him. He admitted that this change of gauge would necessitate a breakage of bulk at the Burkeville junction, but expressed the opinion that the connection with the Southside Road was of minor consideration as compared with other interests of his Road; that while some trade and traffic was had by this city with Southwest Virginia and East Tennessee it had little beyond the character of local business, and was not to be compared with the the interests to be subserved by this change of guage, nor to the increased facilities that could be thus afforded the people along its line.

A member of the committee asked if the whole line of his road from Richmond to Greensboro' was exempt from taxation. The reply was that only that portion of the road which lies in Virginia is exempt. An intimation was given by the inquiring member that he could not consider the proposition until the re-linquishment of such claim was made. To which Colonel Buford replied that his company was now financially depressed, and was in no condition to incur additional burdens, but if the legislation now asked for should be accorded it might be that in the future the company's increased prosperity would admit of such relinquishment. Colonel Buford indicated by a map the route and of his southern connections, and expressed his willingness to respond to any further inquiries which might be propounded by members of the com-

mittee. The hour of 11 having arrived, the committee, without coming to a conclusion, adjourned until Tuesday norning at 10 o'clock.

Immense damage, it is anticipated, will be done to the plantations on the Lower Mississippi by the crevasse at Hushpuckany.

FATAL PRACTICAL JOKE, -An Ohio paper gives the details of what i al ed a lamentable accident, that occurred in Pike township, Fulton county, that State, a few days ago. The circumstances are substantially as follows: William Mullen, Jr., who lives within a short distance of Winameg, had been in the habit of going in the evening for his mail, and had, on more than one occasion, been annoyed by a certain dog howling near his house, and on leaving the house Saturday night, he made the remark in the presence of a young man, by the name of Bird R. Flemming, who was living there, that he was going to the store, and if that dog made that noise again he was going to shoot him. This young man got in advance of Mullen some way, and for the purpose of scaring him, imitated a dog, when Mullen drew his revolver and fired, killing the boy almost instantly.

There is always a great deal of sport in Washington, says the Graphic, at the faux pas made by new members of Congress and their families, who are unused to the demands of fashionable life. Farcy the horrors of the diplomates who were guests at a recent State dinner, at the White House, at seeing the wives of several Congressmen present in black dresses with high corsages; "Oh!" exclaimed an appalled diplomate afterward, 'It was horrible. Such a disrespect to the President and his wife."

It is not that the people love the Democrats more, but the Republicans less, that the tide in political affairs apparently shows a retiring ebb. Corruptions in the collection and disbursement of the revenue, the appointment of inefficent and unworthy men to office, and the general mismanagement of affairs, can have no other effect than to overwhelm in ruin the party that is responsible for them. - Boston Globe.

The Mississippi Legislature has so far favored woman suffrage as to permit all women over eighteen years of age to vote on the question of granting liquor licenses in any city, town or village in the State. The Governor has signed the bill, and it certainly appears to be the most effectual, if not the only effectual way, of sup-pressing the liquor traffic. The ballot will beat all the prayer meetings in the world.

A clergyman at Clarinda, Ohio, was away from home when the crusade began. He returned in the evening, and saw his wife standing at the bar of a saloon, singing as loud as she could yell. He supposed she was drunk, and entering the saloon, the tears rolling down his face, he said : "Come home, wife; you have ruined

me-drunk-drunk-drunk." The Sanderville Georgian says: "Some of our citizens have gone into the convict labor problem. Col. Jack Smith, Mr. Riddle and others have secured a large number, and will try the experiment fully this year in the

corn and cotton fields. There is no sort of stealing known the Cincinnati Commercial, that is Unriv 1ed House Mover. Address to the robbers of helpless cities, says not already exposed in the District of mh 21-tf Yarboro House, Raleigh, N. C. Columbia investigation.

STRONACH BROS.

We offer for sale as successors to G. T. STRONACH & BROS. in Guano the celebrated

Sea Fowl and Bradley's Super Phosphate.

We append a list of Farmers who have used the above mentioned Guano during the past seasen. We certify that no objections have been raised so far to either of the above Guanos. And we guarantee each fertilizer to come up to the analysis required by law. We, in common with Mr. Bradley, believe the new law passed by the General Assembly of North Carolina, as a protective law for the farmers of the State of North Carolina, to be a desirable law, and one which we have desired, to prevent fraud. The Fertilizers which we sell are guaranteed to come up to the analysis standard. We advise our farming community to use

W HANN'S RAW BONE SUPER PHOSPHATE

The unexampled success of this renowned manure during many years, ha a reputation which few other fertilizers can claim. Its sales are very extension all parts of the country, especially in those parts of the South where cotton and corn are largely grown. So decided and positive have been its results on these important staples, that in many sections it is preferred to all other manures.

Whann's Raw Bone Super Phosphate

sprompt and active in its effects. It starts the young plant vigorously, and by furnishing a steady supply of nutriment during the period of its growth, brings the crop to a healthy maturity in time to escape the ravages of early frosts.

We offer this well-known fertilizer to our friends, confident that they will concur in the opinion of the leading planters of the South, that for Cotton and Corn it is unequalled. WILLIAMSON, UPCHURCH & THOMAS,

FROM WASHINGTON. The Administration Organ-Cuban

Recognition. Washington, April 13.—The official organ contains an elaborate editorial declaring the present time opportune, and gives reasons for the immediate recognition of the Cuban Republic. The article contains citations from International law writers, showing no just cause of offence to Spain if recognition is accorded and commercial treaties entered into with the Republic. It declares our commercial interests are greatly suffering by the war in Cuba. That the complications heretofore existing no longer exist. That England intrigues for control of Cuban affairs and trade. That recognition would open a new market for western grain growers, provision dealers, mechanics and manufacturers. That the Eastern and Middle States would furnish occupation to thousands of Southern people and restore prosperity and good feeling in the Southern States towards the government. The article is supposed to express President

NEW YORK, April 13.—Dr. Ernest Uling, charged with an attempt to defraud the Merchants' Life Insurance Company of ten thousand dollars by pretending the death and burial of Louise Germs, who was insured for the above sum, was arrested to-day at 228 East 25th street, where he was found secreted under a bed in his residence. At 160 Eldridge street the police arrested a woman 65 years of age, who gave her name as Marie De Bagnicki, and a young man named Aurel de'Ivangi, who claims to be her nephew. During a search among the effects, which were being packed up, cards and plates were found, proving that Uling's real name was Ernest De Bagnicki, and the woman was his wife. Bagnicki appears to be a member of a noble Hungarian family, and has lived in this city since 1854. He has been in several bad scrapes and was tried twice before for swindling, but escaped. The police are sanguine of arresting the woman Germs in a day or two.

NEW ORLEANS, April 13.—A crevasse of 300 feet wide is reported at McCalloms, two miles below Baton Rouge, on the left bank. The State engineer, who was despatched to the mouth of the Bayon Plaquemine to cut a dike which keeps the waters of the Mississippi out of said Bayon, has returned without executing his missive. The citizens of Iberville parish and the town of Plaquemine, in a public meeting, protested against cutting the dike and resolved to prevent it by force. They have detailed a guard. It is now positively asserted by those best informed that the opening of Bayou Plaquemine would overflow the town of Plaquemine and the greater portion of Berville Parish, hence the opposition of the

The Insurance Swindle Case.

NEW YORK, April 13.-Lousia Gerems, the woman implicated with Dr. Uhling in the attempt to defraud the Merehants Life Insurance Company of ten thousand dollars, was arrested. She states that she was sick and was attended by Dr. Uhling, but denies she was even put in a coffin, and says the undertaker was present when the bricks were put in, and assisted in preparing the coffin for interment, that she and Dr. Uhing's wife were in the room while the bricks were put in. When the Doctors were called in she says she had some soap in her mouth and pretended to have convulsions by the advice of Dr. Uhling.

its management under Col. A. M. The Chief Justice delivered his first opinion on the bench of the Supreme Court to-day in a case from Illinois, touching the right of the State to tax non-resident National Bank shareholders at the residence of the bank. The members of the bar who heard it, and his brethren on the bench, speak of it in eulogistic terms. Hon. The Supreme Court to-day decided the case of Tappan, Collector of taxes of Chicago, against the Merchants' National Bank of Chicago, from the Circuit Court of Illi nois, presenting the questing whether the Legislature of Illinois could in 1867 provide for the taxation of the owners of shares of the capital stock of a National Bank in that State at the place within the State where the bank was located, without regard to their places of residence. The court below decided that the tax could not be thus laid, and the decree was against the Collector. That decree is here reversed, the court holding that the shares of stock in a National Bank are personal property under the National banking act. They are a species of personal property, say the Court, which is in one sense intangible and incorpeal, but the loss of which creates them, and may separate them from the person of the owner from the purposes of taxation and give them a status of their own. This has been done, it is held by the banking act, since the decree below was made. The Supreme Court of be binding on this Court. Its cor-

Illinois has held that the State law of 1867, under which the tax was laid, valid, and that the decision is held to rectness is also conceded. Chief Justice Waite delivered the opinion. In the case of the Atlantic, Tennessee & Ohio Railroad Company and others against the Carolina National Bank of Columbia, S. C., and others from the Circuit Court for North Carolina, was also decided to-day. The question was, whether bonds issued by the Company in May 1862, payable at different periods from November 1869 to November 1875, were solvable in Confederate currency or lawful money. Some of the bonds falling into the hands of the bank, the Company were willing to pay in Confederate money, but the bank demanded money of the United States and this action was instituted to compel the payment under a deed of trust, executed to secure them. The Court below sustained the demand of the bank. Another question was to hear it. It was one step towards

brought here, where the decree is affirmed, the Court holding that the intention of the Company that the principal of its bonds should be paid in lawful money, instead of Confederate notes, may be justly inferred from the nature of the contracts, particularly the long period before they were to mature. When they were were to mature. When they were issued, it is said, it could not have been in the contemplation of the parties that the war would continue from seven to thirteen years. It is well known that at that time it was the general expectation on all sides that the war would be one of short duration. The Confederate notes were only payable by their terms after a ratification of peace between the ConfederateStates and the U.S. The bonds of the railroad were intended for sale in the markets of the world generally, and not merely in the Confederate States. They were payable to the bearer, and therefore transferable by delivery. They state on their face that they may be converted into the stock of the company

at par by the holder. The declarations of the officers of the company, up to July, 1863, show that the company truated the bonds as having an exceptional value, and not subject to above the high water mark of 1871. the fluctuation of Confederate currency. Repealed declarations of the wide and 15 feet deep. The water officers were made to that import. There is sufficient in these circumstances, it is held, to repel the presumption created by the ordinance of the State of 1865, providing for the discharge of all existing contracts by a scale of the depreciation of Confederate money, and declaring that all contracts except official and penal bonds payable to the State should be deemed to have been made with the

intention that they should be discharged in that currency, and thus the case will be governed by the orcinary rule. Mr Justice Field delivered the opinion.

The Supreme Court in the case of the Quarantine Board against Chas. Morgan, an appeal from Galveston, Texas, held that the imposition of a tax of five dollars on the steamers of the Appelle, plying between New Orleans and Texas, for quarantine purposes was unconstitutional, it being an interference with commerce

between the States. The court also held in the case of the United States against Francis J. Herron that the discharge of a bankrupt under the bankrupt act did not discharge him from his indebtedness to the United States.

Congressional-An Interesting Debate on Louisiana Matters-Morton, Carpenter, Sherman and Others Have a Say.

Washington, April 13.—Senate. -Gov. Dix's message and the New York resolutions against inflation was read and ordered to be printed.

Morton presented a memorial of the citizens of Texas in reference to the alleged expulsion of Governor Davis, of that State, from his office before the expiration of his term. Referred to the Committee on Privileges and

Elections. Bayard gave notice of an amendment to the bill to provide for a new election in Louisiana, which sets forth in a long preamble that Me-Enry and Penn were duly elected Governor and Lieutenant Governor of Louisiana, and requests the President to issue his proclamation within ten days after the passage of this act, notifying the people of Louisiana that all hindrance, obstacle or im- Constitution, laws and ballot boxes

sumption of the offices of Governor and Lieutenant Governor by these persons, has been withdrawn, so that they may, without let or hindrance, proceed to fill the same.

Carpenter asked that his Louisiana bill be made the special order for tomorrow after the expiration of the

morning hour. Sherman said he was opposed to taking up the bill, and hoped the sense of the Senate would be taken as to whether it should be considered or not. He thought the Senate should devote its time to other mat-

ters of more importance. Carpenter said the Senator from New Jersey, Frelinghuysen, was prepared to speak on the bill and it should be taken up. However, if a majority of the Senate had determined to stand by the Kellogg government right or wrong, he admitted it would be bad policy to have any debate on the bill. The Senator from Ohio, Sherman, had come here with several financial conundrums | yeas 178, nays 41. which had occupied the Senate four months. The Senator would have been astonished if some Senator had expressed a desire to dispose of the measure without any debate.

Sherman said there were many bills on the calendar, and he was opposed to laying aside practical legis lation to take up this bill. It would do the people of Louisiana no good and would therefore insist upon the consideration of matters of more im-

partance. Carpenter said it was a matter of importance. Where a State had been usurped and its government held by the usurpers under the decree of a Federal Court. He was astonished at the indifference manifested by Senators on this subject. If the Republican party to-day refused to interfere when stts usurpers hold a State by the threat, it could not interfere in any similar case where the usurpers might be Democratic. He was in New Orleans last May when there was a great excitement there, and in a public speech he pledged himself to the people if they would stop violence and submit to the Kellogg government he would do what he could to present their case to Congress. They had kept their part of the contract and he proposed to keep

Sherman said no one would deny that the Senator, Carpenter, had kept his pledge already. He, believed that a large majority of the people of Lousiana had acquisced in the condition of affairs in that State, and it was wise in them to do so. They would have an opportunity next fall, to redeem their Government, and Congress had better attend to its legitimate business, leaving Louisiana matters to right themselves. Any action by Congress now would only derange matters and make things worse. Carpenter said the acquiescence of the people was their submission to the authorities of the United States troops who were now there, and in case of an attempt made by the people to overthrow the Kellogg Government these troops would be put into action under the act of the Kellogg legislature. In regard to holding elections he, Kellogg, could carry the State by 20,000 to 50,000 majority. Morton said that act had been re-

pealed. that fact. West—"Well, the gentleman is not

aware of what is going on." Morton said he had a dispatch from Governor Kellogg, announcing the repeal of the act. Carpenter replied that he was glad

Morton said one of the chief dis turbing elements in Louisiana at present was pending in the Senate. He believed a great majority of the people of Louisiana acquiesced in the Kellogg government. Net only the Republicans, but the best part of the Democratic party were opposed to any action by Congress to set that government aside. Should the bill be taken up he would avail himself of the opportunity to show that what had been done by the Kellogg Legislature had been to the benefit of the State. It was a beneficent Legislature, and Louisiana now, in all her industries and enterprises, was rapidly reviving. No greater disaster could happen to the State than for Congress to interfere and upset the

whole State government. Saulsbury said he thought it right and proper that the Senator from Wisconsin, [Carpenter,] should be allowed to bring this bill before the He, (Saulsbury,) did not know if he would vote for or against t, but he concurred with the Senator, (Carpenter,) that there was no more important question than this. He was surprised at the statements made upon this floor of the acquiescence of the people of Louisiana in the Kellogg government. It was known to every Senator here that if Federal troops be withdrawn, the Kellogg government would be banished out of existence in less than a month. The people of that State had appealed to the President of the United States and had been turned away. Now they were to be turned away from t le Halls of Congress. There were Senators upon this floor who were not disposed to let this matter sleep, but have the iniquity exposed. The iniquity in this Louisiana affair was so great that if they should keep silent the very stones would cry out. Carpenter said he did not think the repudiation of the debt by the Kel-

logg Legislature was a beneficent measure. West said he had no desire at the present time to intrude a debate on the Louisiana qustion upon the Senate, but some remarks were made that required refutation from him. The Senator from Wisconsin had said the repudiation of the debt was not beneficial legislation. He [West] desired to say that the legislation was made at the suggestion of the Democratic party of the State. When the State should be committed to the Democratic party the bonds might as well be put in the waste basket. The people now beseiging Congress for a new election in Louisiana are all the disappointed office-seekers and men who have countenanced murder and assassination. He would not attempt to put the bill on the table now, but would show, when the time came, that the Kellogg government was its legal government of State, and that the people there were

quietly pursuing their yocations. Tipton said he was not specially concerned, about the reople Louis iana, but he was concerned about the people of Nebraska, and he thought the right of the people to administer their affairs was of more importance than questions of revenue, finance or anything else which could occupy the Senate. He wanted to know if hereafter a faction in Nebraska could appeal away from the pediment on the part of the United State whether a handfull of States to the peaceable and legal asmen, running the Custom House, U.

S. Marshals and U. S. Attorneys office couul set up a government of their own, and with a premise of support to some future President could procure the support of the Federal power to maintain them in their positions. Carpenter gave notice that to-mor-

row, after the expiration of the morning hour, he would ask the Senate to take up the bill. Sherman said he wauld ask a vote of the Senate upon the motion.

Freelinghuysen inquired why the vote could not be taken now? Sherman said half of the seats were empty and he would prefer to have the vote taken to-morrow.

Toe Senate then resumed the consideration of the railroad bill. House.-Mr. Packer, from the committee on Post-Offices and Post Roads, moved to suspend the rules and pass a bill for the free transmission through the mails of newspaper exchanges and also in the counties where published. The bill was passed
